

SS JURNAL TP MODUL 4

Nama : Muhammad Rayhan Ramadhan

Kelas : SI4708

NIM : 102022330145

1. 0001_01_01_000000_create_users_table.php

The screenshot shows a code editor with a file explorer on the left and a code editor on the right. The file explorer shows a project structure with folders like 'app', 'database', 'resources', and 'views'. The code editor displays a PHP file named '0001_01_01_000000_create_users_table.php'. The code is a Laravel migration that creates three tables: 'users', 'password_reset_tokens', and 'sessions'. The 'users' table has columns for 'id', 'name', 'email', and 'phone'. The 'password_reset_tokens' table has columns for 'email', 'token', and 'created_at'. The 'sessions' table has columns for 'id', 'user_id', 'ip_address', 'user_agent', 'payload', and 'last_activity'.

```
1 <?php
2
